

COMITÉ PERMANENT DES MÉDECINS EUROPÉENS
STANDING COMMITTEE OF EUROPEAN DOCTORS

CPME/AD/Pres/070404/050/EN

CPME Presidency, Brussels, April 07th, 2004, the CPME adopted the following policy regarding the proposal for a European Parliament and Council Regulation on medicinal products for paediatric use (CPME 2004/050 EN)

Medicinal products for paediatric use

Brussels, 7th April 2004

Dear Dr Arlett,

It is of the utmost importance to get the best and safest treatments for children across Europe. As such, CPME supports this much awaited proposal for a European Parliament and Council Regulation on medicinal products for paediatric use.

CPME notes with satisfaction that its concerns were integrated in the proposal and especially supports the set up of an advisory Board (PB) within EMEA.

The Commission is proposing to have “relevant professional...representatives organisations” represented. CPME, representing all EU doctors, strongly supports this proposal and is ready to provide help and expertise.

CPME is a membership driven association with members from the enlarged EU, EFTA, incoming countries and the wider Europe. The CPME represents over 2 million doctors within the enlarged EU/EEC. CPME’s aim is to promote the highest standards for public health and medical practice at the EU level.

We are at your disposal regarding any questions you may have.

Bernhard Grewin, M.D.
President

Lisette Tiddens-Engwirda
