

PRESS RELEASE

Pharma and health technology dossiers potentially back to SANCO? Great news, but to be confirmed yet!

Brussels, 13 October 2014

It was announced that the European Parliament obtained from Jean-Claude Juncker the shift back of medicinal products and health technologies to Directorate-General for Health and Consumers (DG SANCO).

Dr Katrín Fjeldsted said “This is very good news, but it needs now to be confirmed, indeed. Pharmaceuticals and health technologies are not a simple market commodity. Making the safety of drugs and medical devices dependent on market interests will have disastrous consequences. We once again urge Jean-Claude Juncker to take a decision in favour of health policy.”

CPME co-signed a [joint letter](#) with 27 other Health NGOs.
